*Shower Design
Trends*

Happy National Kitchen and Bath month!! As an EPA WaterSense Partner, we're tickled pink to participate in their water efficient bathroom mini-makeover promo. Nothing like a good make-over!

Yikes, those gov guys can provide some shocking numbers! Did you know that every American uses an average of 100 gallons of water a day? About 17 percent is from showering. Here's what my design peeps are seeing in shower design trends.

Folks are opting to remain in their present home and update. They're also thinking "down-the-road" and what they'll need to comfortably age in place but still have their dream shower today. Larger showers with all the perks are hot ... and the sky's the limit!

Spa-like showers are a retreat from daily stress. You can have a drenching water experience with water-saving overhead showerheads, handheld shower and body sprays without sacrificing performance. Next up? Digital products to control water warm-up modes and temperatures.

Showers are easy to access – no matter your age. Depending on your needs, accessories such as benches, shelves and grab bars can be added. Shower enclosures are chic again with lots of styles and funky configurations to fit most any design. Clear glass doors open up a space making it appear larger.

Imagine your dream shower and visit our showroom to see some of our terrific options. Our design consultants will be de-lighted to help!

A Bathroom Mini-Makeover Makes WaterSense!

October is National Kitchen and Bath Month, an annual event that promotes ways to add value to kitchens and bathrooms.

Modern Supply has showrooms jam-packed with energy and water-efficient WaterSense plumbing products and fixtures, and the friendly staff is ready to help with suggestions that will save you both money and stress. And what else could stand between you and a wonderful new up-dated look?

Bathrooms are by far the largest water users in the home, accounting for more than half of all indoor water. Giving your main bathroom a mini-makeover by installing a WaterSense labeled toilet, faucet and showerhead can save your household about 7,000 gallons annually – or enough water to wash six months' worth of laundry. Wow!

A WaterSense mini-makeover will also save enough electricity to run your refrigerator for two months!

Replacing your toilet, faucet and showerhead with WaterSense labeled models can pay for itself in as little as two years.

WaterSense labeled bathroom fixtures are available in a wide variety of styles, colors and prices. Stop by Modern Supply soon and begin your own bathroom mini-makeover!

865.966.4567

There are more toilet choices than most people realize. Modern Supply's showroom displays a large selection from several vendors.

Water-saving faucets & showerheads are available to suit any style or personal taste.

PRODUCT SPOTLIGHT

Modern Supply carries the latest products for your bathroom. Shown here are a couple of cost efficient "best sellers" for your bathroom make-over.

Cadet® 3 By American Standard

A best seller! High performance, fewer clogs – all at a great price. The Cadet 3 series toilets come in a variety of styles; one and two piece models, elongated and round front bowls, right height and compact version, and water efficient models that use just 1.28 gallons of water to flush.

Hot Bathroom Furniture!

Vanities have become furniture for the bath. Let your imagination run wild with the large variety of styles, colors and sizes to choose from. Shown are two choices from American Standard.

Water efficient showerheads use 30% less water a year.*

Use 30% less water a year with a WaterSense faucet.*

High-performance toilets use 20% less water a year.*

save water, save money.

Have your dream bathroom and help the planet with our WaterSense labeled products.

Save water without sacrificing beauty or performance.

American Standard products give you a great shower, a clean flush & a clear conscience about saving water.

*EPA findings based on a family of four. To be WaterSense certified, products must use at least 20% less water.

Save \$25 on any American Standard WaterSense products Valid through 12/16/11. Limit one coupon per customer.
